

# Auto-Set® S4000

Fire Rating	Max Width	Max Height
180 minutes	UNLIMITED	7 metres

# Auto-Set® S4000

The automatic resetting S4000 is a side coiling fire and smoke rated door. The S4000's side activated design makes this product ideal for openings in rated walls where headroom is limited and enables the door to navigate around tight curves and contoured openings.

The S4000 Fire Door Systems do not require a floor track and are capable of navigating around tight curves and contoured openings.

- 1 Coil Box
- 2 Fire Door Motor Operator
- 3 Head Track
- 4 Curtain Slats

### Finishes

McKeon Sterling Gray  
Powder coat  
Stainless steel

### Head Track

Only 175mm high and 40mm wide. Can navigate curves of 450mm radius

### Ratings

Up to 3-hour rated to UL 10B  
Smoke & Draft labeled UL 1784

### Egress

Not available

### Floor Track

Only required dependant on height, swing door placement and building pressures. Consult with Greene Fire for advice.

38mm high with a 5mm operational slot, with removable cover plate to allow for cleaning.

Model	Open	Self-Close	Egress	Function
S4000	Auto-Set® Operator	Fail-Safe Mechanical	N/A	Side Coiling

### Benefits

- Uses very narrow head track where there is low ceiling space
- Shutter coils up in a small rectangular shape coil box
- Head track does not need to be straight and can follow unique ceiling designs
- Floor track not necessarily required
- Does not require the side pocket to be the full width of the door or for it to be in the same line as the door

### Operation

Auto-Set® automatic resetting  
Fail-Safe Design - automatic self-closing mechanism does not require power operation
